

FARMING IN AFRICA

The page below shows some problems faced by farmers in Africa. A **cause** is the reason something happens. The **effect** is what happens as a result. Fill in the empty boxes with information from this week's cover story.

CAUSE

EFFECT

1. Every year, African farmers have fewer and fewer crops.

2. In Africa, women and children do the farming.

3. Farmers are forced to grow crops in the same fields year after year.

4. _____

African scientists are developing hardy seeds that resist disease and weeds.

5. _____

Many of the scientists working on projects to help farmers are women.

6. The Alliance for a Green Revolution in Africa is spending \$150 million on the program.
